not yet prove favorable to a pacific adjustment

CONSUMPTION.

LOUIS FONTAIN, jr., partner of the firm of
Fontain & Son, Chemists and Prescription-
ists to the Royal University, Paris, has established
at Washington, D. C., a depot for the sale of
the above celebrated compound, at Wm. Adam's
Bookstore, No. 3, Elliott's Buildings Pennsylvania
Avenue, near Jackson Hall, which they offer to
the American public as a sure antidote for Con-
sumption, in its incipient as well as in its ad-
vanced stages. Acting directly upon the LUNGS,
restoring their decay, it not only soothes and quiets at
once the distress and pain attendant upon this heretofore
regarded fatal disease, but restores the lungs
and their sympathizing organs, to natural and healthy
action. Accompanying each package are gen-
eral instructions and directions (translated) for its
use, adapted to all cases, and if strictly followed,
will not fail, in every instance—if the lungs are
not wholly consumed—of restoring to health
which may be permanently secured by future care
and avoiding too much exposure to atmospheric
changes.

Price, eight Francs.

For the information of persons residing in the
interior; if any part of the government—would
state that the remedy is prepared and imported di-
rectly from their Laboratory, Paris, and that the
same can be transported through mail, as he is ad-
vised by officers of the Post Office Department, to
any post office in the country, at the same charge
as for a double letter. Any persons, therefore,
residing distant from this city, who may wish to
avail themselves of the remedy, can do so by ad-
dressing him through the mail, post paid. Two
dollars accompanying an order, will entitle a per-
son to one whole and one third package.

COLLETON BITTERS.

THESE Bitters are purely a vegetable com-
pound, and are offered to the public from
principle of benevolence, under the fullest con-
viction that they will be found a safe and sovereign
remedy for Dyspepsia. They have been triumph-
antly tested, not only by some of the most re-
spectable families and physicians in the State of
South Carolina, who have furnished simple testi-
mony as to their decided excellence, but also by the
proprietor, who, for ten years, suffered all the gloom
incident to that stubborn and distressing disease.

They possess the peculiar excellence, denied to
most other Bitters, of not proving injurious by con-
tinued use. They contain not a single deleterious
ingredient, and, as seen from the directions which
accompany each bottle, may be given with entire
safety to an infant in the month.

With pleasure, and for the benefit of mankind, I
send you a certificate relative to the Colleton Bitters.

In the year 1838, when the cholera was in
Charleston, S. C., I was compelled to send a servant
to the city. On his return, he was suddenly at-
tacked with most violent pain in his bowels, so much
so as to cause apprehension that he would expire in a
short time, if medical aid could not be procured. I
immediately resorted to the Colleton Bitters, by giv-
ing a wine glass full at a dose. In the course of a
very short time it acted as an emetic, and throwing
him at the same time into a profuse perspiration. I
then continued to give it in small doses, from two to
three tea spoonsful, which resulted in a happy re-
covery. Since then I have been using it constantly
in my family, in cases of cholera, dyspepsia, and
in every instance it has proved highly beneficial. Some
constitutions, however, require much larger doses
than others.

JOS. D. JENKINS.
Bluffton, S. C., 1846.

It is with feelings of gratitude as well as pleasure
that I take this method of giving my testimony of
the great estimation which I entertain for your in-
valuable compound. In justice not only to the me-
dicine, but for the benefit of others who may be suf-
fering from the same malady, Dyspepsia, with which
I was for years afflicted, I feel it a duty incumbent
on me to state that I am now restored to perfect
health. When I commenced taking the Colleton
Bitters it was as a last resort. My debility from in-
digestion was so great that a cure was looked upon
as almost hopeless. After taking it regularly and
perseveringly for some time, my strength and di-
gestive powers were entirely restored. I have never
taken a single dose of any other medicine for more
than five years past. I can now eat the richest food
without any unpleasant feelings whatever. I have also
used Colleton Bitters freely in my family for
cholera, dysentery, cholera morbus, general debility,
and as a tonic after fever, with great success. As a
family medicine I deem it invaluable, and do con-
scientiously recommend it.

ANOTHER WONDERFUL CURE!

PHILADELPHIA, April 9, 1846.

Last August a year, I caught a violent cold,
in consequence of getting wet in a shower of rain.
A circumstance so common gave me no immediate
concern, supposing that I should soon get rid of it.
On the contrary, however, I daily grew worse; a
violent cough set in, then pain in my breast and
between my shoulders. I now suffered great op-
pression from the great secretion of purulent mat-
ter in my lungs. I became greatly alarmed; and
my friends considered my situation extremely
critical, the more so as loss of appetite, hectic
fever, and night sweats rendered me as weak as
a child, and at night the sweat literally poured off
me! This was my condition when I commenced
using "Thomson's Compound Syrup of Tar and
Wood Naphtha." I procured one bottle, and ex-
perienced so much benefit that I resolved to con-
tinue it. It is now six months since I ceased using
the medicine, and the cure remains perfect. I
firmly believe this medicine is far superior to
every other remedy for Consumption of the Lungs.
